WIRELESS PACIFIC™

WP6WC Series Chargers

Wireless Pacific is a world leading specialist two way radio accessory manufacturer. WP6WC/X6WC chargers deliver world-class battery charging performance and reliability. We have introduced our intelligent range of select 6 way multi-chargers designed for the industry's most popular two way radios. You can rapidly charge your fleet of radios in a matter of hours, the WP6WC chargers can be powered from 110-240V AC 50/60Hz power or 13.8V DC power sources as found in most vehicles.

The WP6WC charger is intelligently packaged in a sleek design in order to take up as little space on a desk as possible, whilst built tough enough to withstand the daily rotation and charging of radios in a busy commercial or government communication operation.

Warranty:

All Chargers are covered by a full and comprehensive warranty and are warranted to be free from defects in material or workmanship including any associated accessories. Wireless Corporation will, at its option, replace or repair parts found defective and pay return shipping to the registered owner.

The warranty applies only to the original owner and does not apply to a charger which we determine has failed due to physical damage, corrosion, accident, unauthorized or improper use, repair or modification. The owner is responsible for the transportation costs of the equipment back to the place of purchase. In no case will Wireless Corporation Ltd accept responsibility for incidental or consequential damages.
