**Heavy duty  
IP67\* waterproof  
Noise cancelling  
Loud & clear audio  
Rugged shock resistant  
Industrial grade operation  
Removable 360° rotary clip  
Tough 5mm curly cable  
3.5mm earpiece socket  
High tactile PTT button**

## Built for government and business professionals

The high quality, durability and reliability of the WPWNC heavy duty noise cancelling microphone has been designed to meet the highest standards required by government agencies and law enforcement officers working in critical scenarios. We use the strongest of shock resistant polymer blend housings, tough resilient curly cables and precision tooled connectors for premium performance. The professional and commercial user can feel assured that you are getting the same industrial class dependability and performance, no matter the size or type of your operation.

## Earpiece operation for privacy

Naturally, the WPWNC speaker microphone features a 3.5mm audio headphone jack to provide for quiet secured communications when privacy demands. A range of earpieces are available to suit your operating environment or personal preference.

## IP67\* water/dustproof rated

The WPWNC microphone head has been designed to meet IP67 waterproof and dustproof standards which means they can be used in almost any work environment with the secure knowledge that they will maintain their inherent mechanical integrity day in day out. Additionally, models like the i4W provide IP67 connector compliance when connected with Icom waterproof radios. \*Note: the WPWNC IP67 rating is only applicable when the 3.5mm earpiece jack is not in use and it is sealed with its (undamaged) rubber sealing boot.

## Noise cancelling for clarity

To ensure good quality audio in the noisiest of workplace situations, the WPWNC speaker microphone incorporates a directional noise cancelling design. Personnel using the microphone should always talk with their lips close to the microphone audio entry point to ensure background noise is minimised and their voice is heard loud and clear.

Optional Earpieces
